ABOUT ME

I am an enthusiastic **MERN stack web developer** with a zeal to learn fast and contribute to a developing product. I want to work with experts team members and improve my skills along the way.

I am astute at learning new tech or a framework. My priority is **to improve my skills, provide value** to my employer over the financial benefit.

To read more or to view my live projects, visit my portfolio here: https://vbhv4webdev.netlify.app/ ↗

FAVORITE PROJECTS

MAY-2021 Present — **Portfolio Website** ↗

This is my **most favorite** because it's a **MERN stack project**, and I have written all the code for it on my own from scatch.

MAY-2021 — **Responsive Layout** ↗

For this project, I received the desing from a course online, and then I coded the entire thing on my own.

MAY-2021 — **Task Manager** ↗

I received this as an assignment from one of my employer, I finished within deadline. It was super fun.
